"I consider advertising to be more of a creative craft than a marketing technique." It all starts with a fundamental grasp of how we may turn our dreams into reality. Then, on a platform, we assemble suitable materials and make magic.

We, At Metroplus, are dedicated to provide you with the most innovative solutions with the utmost attention and care, because advertising signs are more than just a business to us; they are a deep seated PASSION in our hearts."

Milestone

Our
Strength.

HG INDUSTRY is the company’s manufacturing arm, with plants in Dubai, Sharjah, India, and China, as well as more than 130 OEM/ODM partners in 13 other countries. We develop, manufacture, assemble, and market our own brands, as well as bespoke solutions, signage solutions, and custom manufacturing of architectural facades, digital signage, and other custom fabrication techniques. All B2B activity, including specification selling, trade sales, and channel distribution, is handled by the IHG brand, which is now active in the Middle East, India, and the United Kingdom. We have merged the Lighting, Electrical, Automation, Digital, Signage, and IT industries by synergizing the most sophisticated advances in the online globe, thanks to our vast commercial accomplishments and long-standing expertise. We are overjoyed to see our company grow and develop over the world. IHG provides transshipment services to more than 43 countries in the Middle East, Southeast Asia, and India. “Be inspired to inspire” is the driving force behind our company’s mission to bring about change and innovation in the lighting industry, with the best brands and services to offer.

Values

Leadership
Inspire and set standards governed by a commitment to quality, timely delivery and sustainability

IHG BRANDS

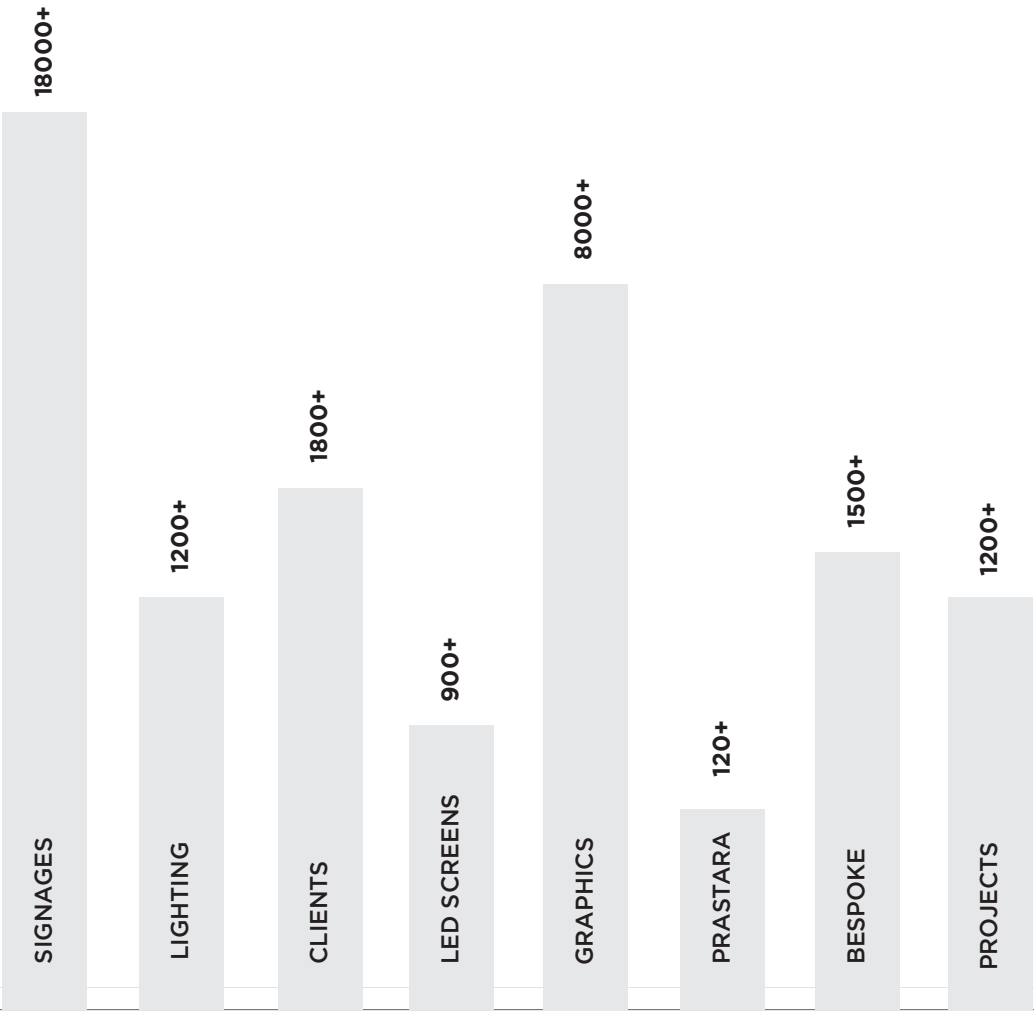

About us

'Metroplus Advertising,' a full-service firm, collaborates closely with clients to create personalized advertising solutions. We are a complete turnkey provider for all your advertising requirements, from simple reception signage to shop front illuminated signs, building-wide sign systems, retail graphics, redesigned brand logos, high-quality website development, and complex maintenance LED signage. To accommodate entire branding solutions ranging from ATL to BTL, we operate with four primary divisions – Signage, Print, Media, and digital signs. We provide professional signs and graphics solutions tailored to the needs of retail, business, and public contexts. By providing quality, reliability, efficiency, and innovation in a highly dedicated and courteous manner, we have developed a loyal customer base. We take pleasure in being at the forefront of industry challenges and innovation, actively seeking out new technology and opportunities to integrate into our operations. It is equipped with cutting-edge machinery and software, allowing us to deliver the best options for creating an unrivaled identity for our clients in a timely and cost-effective manner. With an expanded signage workshop in Al Qusais, Amman Street Dubai, and an existing full-fledged workshop in Al Qusais industrial area 3 and Al Nahda Sharjah, we are a truly production-based enterprise. We work with customers all over the MENA region, with a main core focus on the GCC market. We've established a strong network of dependable suppliers and installers across the Asia-Pacific region, allowing us to design any full-fledged product roll-outs or campaigns to your specific geographic or organizational requirements.

Why Us.

We have a competent staff with over 12 years of experience in signage production, digital print management, LED sign systems, media services, and digital advertising. The majority of our signage projects are commercial signs.

Retail stores, supermarkets, professional offices, restaurants, hospitals, and educational buildings are among the projects we've worked on. We collaborate closely with designers, shop fitters, architects, and individual clients who want their brand or logo to be incorporated into signage.

Value proposition

Our previous experience attests to our ability.

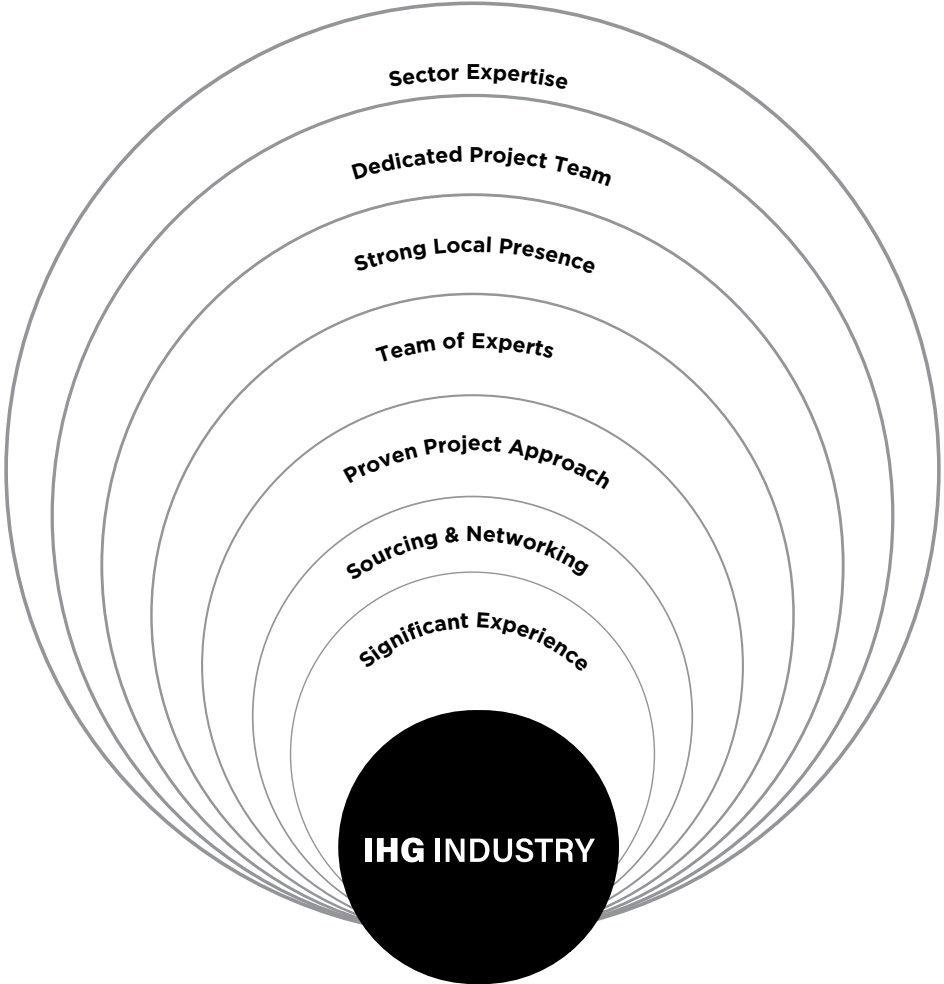

We have the necessary industry knowledge to deliver.

Our experts are actively involved, and we use a tried-and-true methodology.

Our people are our greatest asset.

Working in the region is something we're familiar with.

**“ A specialized team with
extensive experience to
deliver value ”**

Sectors Signages.

Retail stores

/malls / supermarkets / F&B

The word "retail" conjures up images of mystery and invitation. We've been designing retail spaces for more than 10 years to improve the consumer experience and exhibit new ideas and products while keeping the brand's character. Above all, we want to create spaces that leave an indelible impact on people who enter.

Industrial

corporate headquarters / showrooms

We understand the impact of physical spaces on the way students explore and discover. Learning environments that promote optimism, intellectual curiosity, academic excellence allow students and teachers to take pride in their education. We are mindful of the importance of getting this right in order to inspire the next generation of leaders.

Hospitality

hotels / resorts / spas

Our hospitality areas are created to encourage and enable guests to fully immerse themselves in a location. Work or play; adventure or relaxation; party or unplug are all options. Long after the visit is over, the interiors leave an indelible impression. We aim to build spaces and locations that people want to come back to, places that have improved their work, play, or stay.

Commercial

offices / corporates

Commercial signage provide your company exposure in ways that no other kind of advertising or promotion can. Your calling card is a well-designed, made, and affixed commercial sign. Not only do commercial signs promote your company's identity and image to your target audience, but they also promote it to the rest of the globe.

Government

offices / service centers

Government spaces are places of civic pride. We create places of distinction that enhance the services governments provide for citizens while being respectful to historical context and cultures. Our experience creating spaces for governing entities across the country allows us to seamlessly navigate public sector.

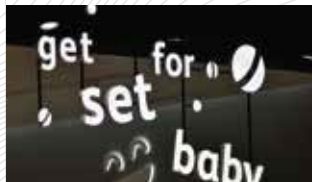

Others

restaurants / lounges / cafes

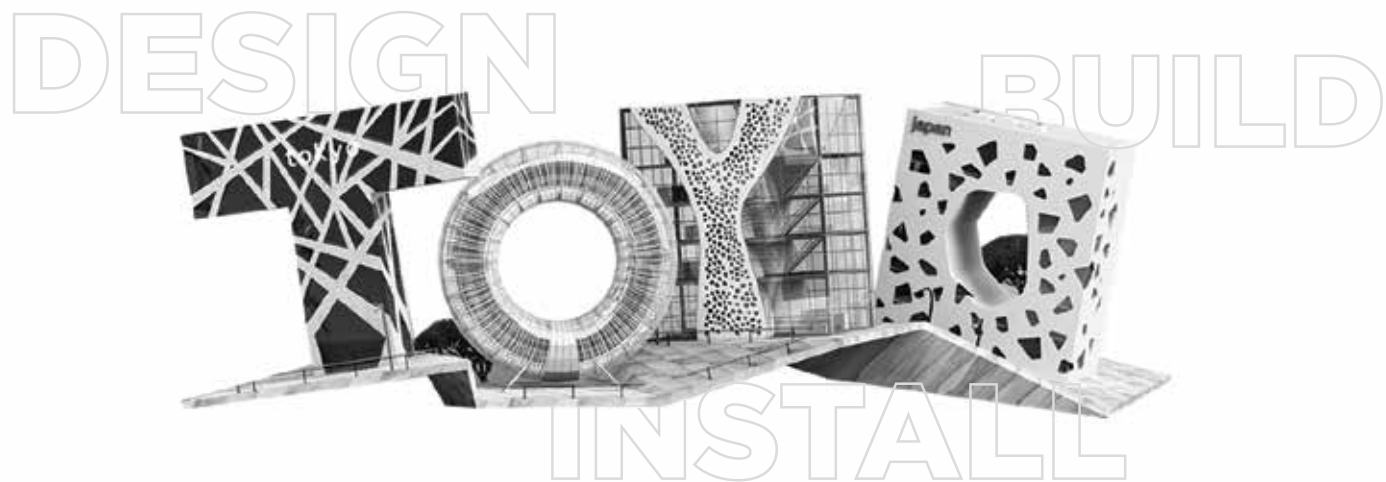

Few things make people smile or bring as much joy as a dining experience. And the interiors of an F&B outlet leaves as strong of an impression as the food itself. We approach the interiors of bars, restaurants and cafes with creativity and operational understanding, producing dynamic, ambient and functional spaces for entertainment.

What We Do.

Our Scope

We provide our clients with the most comprehensive service in the business, from Sign Audits to assessing floor plans, site plan and design preparation, manufacturing, and project management of sign programs.

Our Production

To maintain our high quality standards, all sign installations are handled by our in-house installation crew. Each client is treated with the utmost priority and respect from start to finish. A specialized project manager will be able to accompany you through the whole process of designing, commercializing, and finally installing your very own signboards, guaranteeing that every signboard we sell meets or exceeds our customers' expectations. In order to develop quality, long-lasting Signage boards, our engineers are adept in knowing exactly what is required in structural design, electrical work, and installation needs.

Facility.

We just relocated to our new corporate headquarters in jebel ali, a 200,000-sq.ft. fully integrated building including offices, a customer experience center, a design studio, joinery manufacture, and warehouses.

Head Office.

Our corporate headquarters, design studio, projects office, production factory, showroom, and warehouse & production are all housed in one site.

Work space.

IHG INDUSTRY has compact CNC milling machines that are at the forefront of desktop and benchtop 3D production, delivering precise results on a wide range of applications, including subtractive rapid prototyping, rapid manufacturing, hobby, craft, and jewelry making, as well as producing medical and dental prosthetics. Engineers and designers use milling machines to create highly accurate, functional parts and snap-fit prototypes from a variety of materials and software rapidly and affordably. MDX and monoFab brands go beyond 3D printing to deliver clean and accurate subtractive milling solutions that bring your 3D creations to life and pique people's interest.
